GeoFM is a special FX VST audio effect plugin inspired by the sound of FM radio stations and being used for the purpose of creating distinctive and unique sound results, such as 3D echoes, frequency and cross-symmetry shift, top & bottom split, etc. Concept and Concept of Geofm A radio effect plugin, which uses a nonlinear model of a real radio transmitter to gain original sound effects and a great diversity of electronic dance music productions. Although the sound is clearly digital, you can use it in full analog mode (original by-pass). In the absence of the signal from the controller, it works as an ordinary delay plugin, varying its delay time depending on the signal level. Effects of Geofm Most of the existing effects: the increase of harmonic content, narrow band filter, cross-symmetry shift, delay, flange, delay effect, ring modulation, echo, phasing, etc. In addition, it provides new sounds: including dial noise, synthesis, noise, modulation, clock and radio stations, frequency, phase, linear and phase modulation, six band, crossover, band-pass filter, lower and upper sideband, low pass, high pass, 3-band, dynamic filter, equalizer, etc. Geofm also allows the user to apply all effects in two ways: 1. Automated mode. In this case, the sound parameters are previously defined as often as possible. 2. Manual mode. If the user prefers, then he can fully adjust the effects on the fly. How it works The mixer effect responds to the envelope signal for each effect, so that you can have a signal first from a sideband low-pass filter, then from a narrow band filter, then from the digital signal, and from many other effects. Options include: • The number of filters, the delay time, the filters quality. • The number of modulation effects (FM, AM, etc.) and their parameters. • A selectable filter band for the cross-symmetry shift. • The delay time. • The phase distortion. • The quality of the effects filter: analog, digital, psycho, etc. • The ring modulation. • The number of rings. • The position of the rings. • The modulation bandwidth. • The modulation depth. • A dial tone. • Geofm using the internal synth. This sounds fantastic for horror and sci-fi music. I have been using it for many years, as I have yet to find a plugin that comes close to it's sound. This has become a go to plugin for me for as rough a sound as I want, perfect for snarls and growls or adding some dirtiness to a clean sound. One of the first plugins I would suggest to anyone! So far, every GUI layout that I've seen is currently only used to combine different tasks. For example, Fission takes the task of audio analysis and tries to fit it into a web browser to create a unique piece of software. On the other hand, HoRNet Graffio presents a GUI that's really clean and clear, showing you all the tools that you need to achieve your results in all the three applications, in a unique web browser. So, what are you waiting for? Just click the link below to get your FREE trial and see how HoRNet Graffio can help you in your music production. The most potent, expensive and most glamorous yachts in the world could be found at the Monaco Yacht Show. Also known as Monaco International Boat Show, it includes a competition for the fastest boats, luxury yachts and just pretty impressive boats. You can see how the designers are pushing the limits of design, engineering and technology. We will also be sending a team to Monaco this year and we will be bringing the experience to you. We will have news, hands-on experience and we will let you know what you should be looking for. Our team is traveling to the event with more than 20 yachts of all shapes and sizes. We will be covering everything from fly-by-the-seat-of-your-pants racing for one of the most prestigious trophies in the sailing world to more luxurious luxury yachts. If you are a lover of larger yachts then you can check out our new Inspirations editorial feature. We will be highlighting some of the most impressive yachts that you are sure to love and fall in love with on your next trip to Monaco. The Monaco Yacht Show lasts for two weeks. The first week is for the serious class of yachts. There are some new boats that you won't want to miss out on. If you are planning to buy or sail a boat and this is your year to show your confidence and your fine taste in yachts you should definitely consider visiting Monaco.
